

# Choosing Your Shadecloth

Selection on lightness/darkness and opacity for privacy, heat and views

Lighter Shadecloth - Reflects light & heat, but decreases view

1% Open  
Privacy  
Translucent

3% Open  
Diffusing for  
strong direct light  
Good view

5% Open  
Moderate light  
Better view

Darker Shadecloth - Absorbs light and increases view, but attracts heat

1% Open  
Privacy  
Translucent

3% Open  
Diffusing for  
strong direct light  
Good view

5% Open  
Moderate light  
Better view
